**HELP WITH APPOINTMENT
SETTING**

Obtaining an Interpreter is one thing. Setting an appointment with a patient or client is another matter. Verbatim Language Services, Inc provides a solution. If the appointment needs to be communicated in Spanish, simply call our office's toll-free number and we will use our 3-way calling system to set the appointment while you are on the line. If the appointment needs to be communicated in a different language, we will arrange for the appropriate language Interpreter to either contact the patient/client to set or confirm the appointment or arrange for the Interpreter to call the patient/client from your facility. That certainly makes things much easier!
